

# ADMISSION AND ENROLLMENT

---

## Admission

Recruiting & Admissions staff along with Academic Advisors offer many services to prospective and current students. An established application process makes for seamless transition from admission to enrollment. Easy access to technical education is possible due to August and January start dates for many programs and courses.

Recruiters are available to assist prospective students through the application and enrollment processes.

## Enrollment Process

Applicants who wish to apply for admission to Washburn Tech need to have the abilities necessary to benefit from instruction in a particular occupational field. Prospective students are required to meet assessment requirements and complete all necessary admissions requirements for their desired technical program before they are eligible to enroll. Some programs may require testing prior to admissions; consult a Recruiter for details.

Students must be enrolled no later than the beginning of the 3<sup>rd</sup> day of class. Exceptions are at the discretion of the Associate Director of Tech Admissions.
