

ADVISING

Washburn Tech Academic Advisors help eliminate barriers to student success.

Advisors help students develop and implement a holistic success strategy that supports their academic performance, retention, and on-time graduation.

An Advisor works one on one with students to develop the goals, dispositions, and skills needed for personal and academic success. Academic Advisors also connect students with campus and community resources to promote access to services and college success outcomes.

Advisors also provide proactive advising to students on Academic Warning and Probation, and collaborate with students to get them back on track.
