

TRANSFER OF CREDITS

Individuals who want to transfer credits to Washburn Tech from another institution must submit an official transcript for review. The determination of whether to accept credits from another institution will be based upon many factors; students may be asked to provide syllabi for any transfer courses. Only those courses in which the individual earned a "C" or better will be considered for transfer credit. Students must complete a minimum of one-half of the required program credit hours at Washburn Tech.

The final decision regarding the number of credits that will be transferred in will be determined by an Assistant Dean in consultation with the program instructor(s).
