

# CABINET/MILLWORK, AAS

The Cabinetmaking/Millwork AAS degree provides the student with the knowledge and skills necessary to plan and complete cabinetry, furniture and millwork. Students learn to work with prints, specifications and shop drawings, power tools, and equipment in design, layout, and construction of projects. Emphasis is placed on selecting proper materials, determining the best procedures, manufacturing parts to specification, and assembling and finishing. This program will offer students preparation to test for the industry-recognized credentials listed below.

## Program Information

- Program Start, technical coursework (semesters): August
- Industry-recognized credentials: NCCER Core; OSHA-30 Construction

## Degree Requirements

In addition to the requirements stated below, students must complete all requirements for an Associate of Applied Science (<https://catalog.washburn.edu/washburn-institute-technology/programs-technical-certificates-graduation-requirements/aas-degrees/>) degree. Completion of the courses below will fulfill the general education requirements for the degree. Please see your advisor for more information.
